

Case Testimonial Form

Community Design Amnesty for Unpermitted Buildings

Board of Supervisors members have asked for documented cases of financial and other harm experienced by residents due to aggressive enforcement procedures on otherwise safe dwellings. The more cases we can present, the more the BOS can move toward supporting an amnesty policy. Please ask neighbors, friends, colleagues, and others in your network if they have experienced financial or other harm from Code Compliance Enforcement.

Please use the form below to document any harm you have experienced.
